

### **Group Exercise: Problem Tree**

Define a problem that relates to higher education. It could be related to programs, curriculum, infrastructure, etc. Ideally, it should correspond with one of the three areas highlighted in your QIF Manual [Improve or develop programs in fields which are relevant to labor needs; Human resource development and Institutional Capacity; Improvement of Institutional Information (quality of institutional information, governance, and general and financial management)] Once you have identified the problem, construct a problem tree showing the cause and effects of this problem.
