

OBJECTIVE TREE HANDOUT

Step 1: Reformulate all negative situation of the problem tree into positive situations that are :

- Desirable
- Realistically achievable

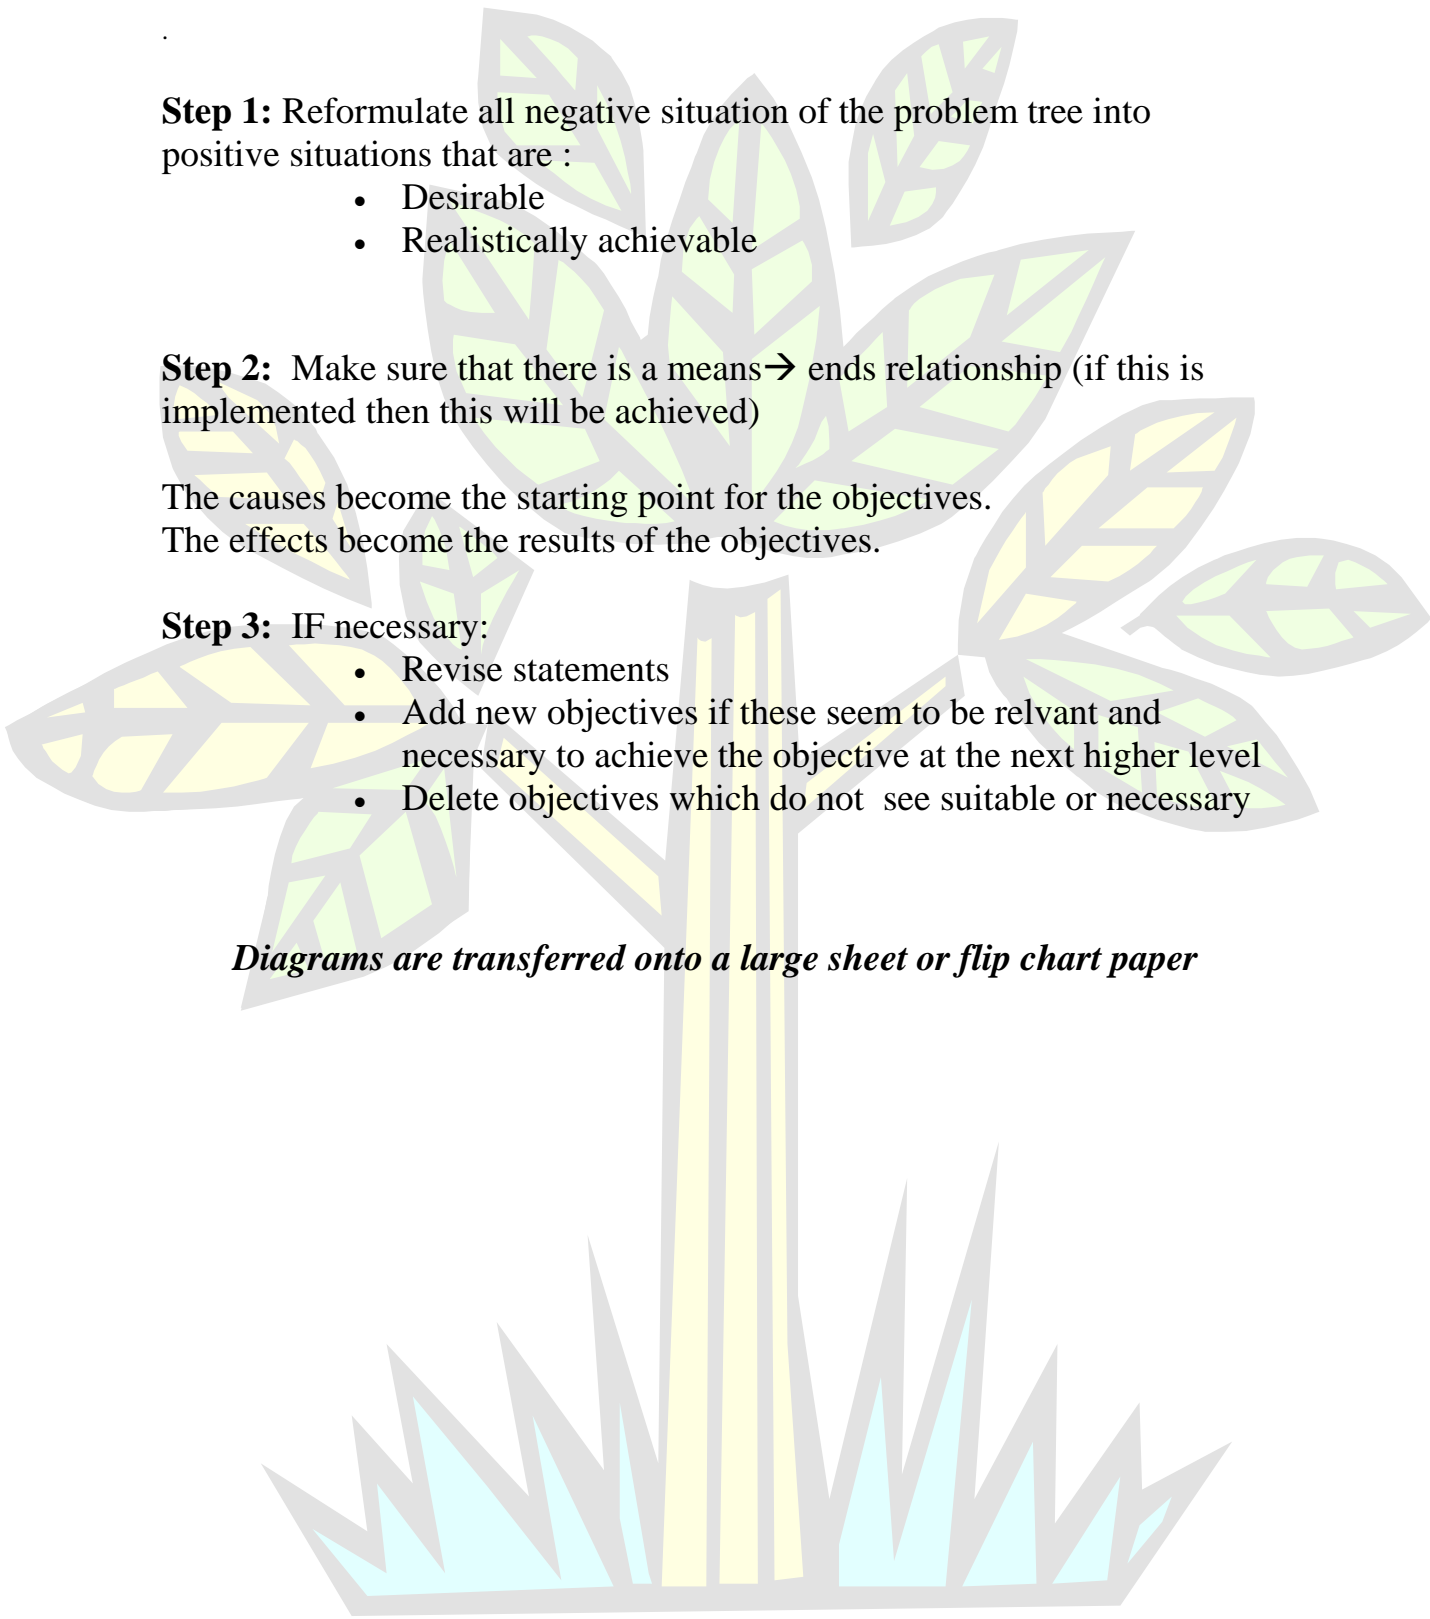

Step 2: Make sure that there is a means → ends relationship (if this is implemented then this will be achieved)

The causes become the starting point for the objectives.
The effects become the results of the objectives.

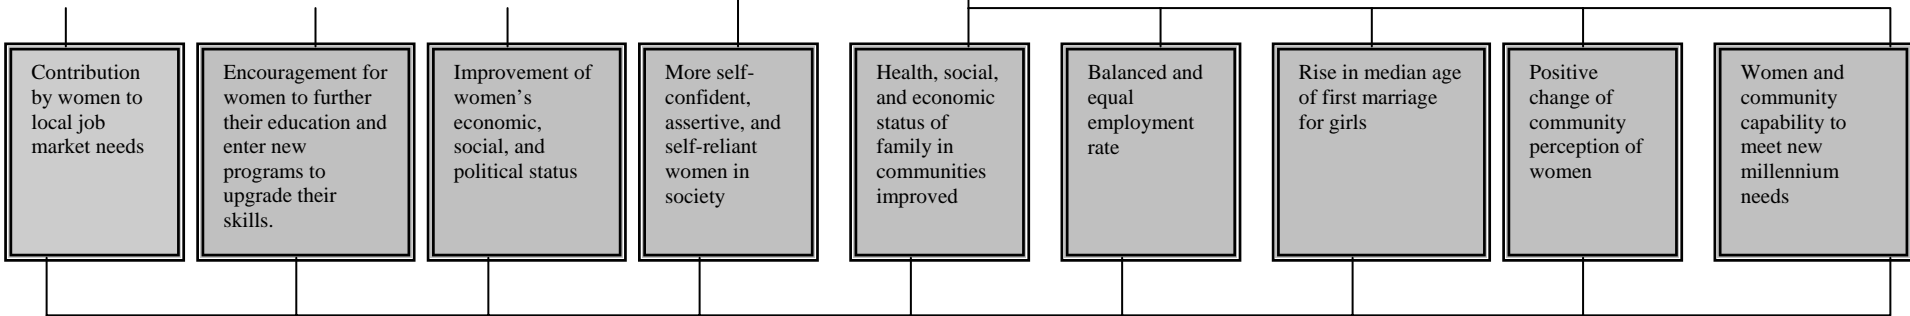

Step 3: IF necessary:

- Revise statements
- Add new objectives if these seem to be relevant and necessary to achieve the objective at the next higher level
- Delete objectives which do not seem suitable or necessary

Diagrams are transferred onto a large sheet or flip chart paper

Enhancement of Palestinian Development

To increase women's capabilities in order for full and equal participation in the changing job market through new media technology training
